LIGHT-POINT

WE BELIEVE IN
CREATING LIGHT

At LIGHT-POINT we have one goal - to improve the everyday **life** of people all over the world. Our lamps are designed to provide inspiration, and to solve everyday needs, be it lighting your home **interior**, your office or public spaces. Our **design** is not driven by current trends, since we believe that a classic, minimalistic design with the right function will last for generations and bring **character** into any **environment**.

CITY

Design: Marie Holsting

FOUNDER

Ronni Gol had a decisive influence on how we experience the world around us and interact with one another. We are fortunate enough to live in a world, where we as consumers can choose to switch between night and day according to our whims. In short, we can construct the exact life suiting our individuality, because we are not dependent on daylight to be able to function, and can for instance choose to work at night and sleep during the day. This places great demands on how we approach future light solutions, and the possibilities for innovation when developing a lighting product.

INSTALLATION GUIDE

INSTALLATION INSTRUCTION

- Before installing, make sure the power supply is switched off.
- Follow the steps as the figure for installation or replacement of bulb Step.
 - after holing, pull out the wires.
 - fix the mounting bracket onto the wall with screws.
 - connect the wires to the terminal block.
 - slide the fixture to the mounting bracket

- After finishing every step, tighten the screws, have the fixture fixed, and then connect the power supply.

CLEANING INSTRUCTION

- Before cleaning, ensure that the power supply is switched off.
- Use only a soft cloth to clean the lamp, dampened with mild cleanser if needed for resistant dirt.
- Warning: do not use alcohol or other solvents.

CAUTION:

In case of any doubt, please contact the qualified electrician.
